

INTERNSHIP

## INFRASTRUCTURE INVESTMENT COMPANY

### About us

TDP NV is a developer, investor and manager of infrastructure and related assets, active throughout the life and value cycle of the infrastructure asset class, from development, over construction to operations. TDP has launched several infrastructure investment initiatives, including the Euronext listed investment company TINC and the unlisted investment fund DG Infra Yield.

We have a team of experienced infrastructure specialists with a financial, engineering and legal background. They have a broad understanding of the infrastructure asset class and the typical investment structures that apply, including project finance and public private partnership, across a wide range of sectors such as transport, energy, communication, accommodation and care.

### The opportunity

For our offices in The Hague and Antwerp, TDP has permanently two to four positions for an:

## INTERN INFRASTRUCTURE / PROJECT FINANCE

During a period of 3-6 months, you will work as full member of the team and experience what the business of an investment company is really about. As an intern, you will assist in preparing investment cases, conducting market, industry, company and project analyses. Furthermore, you will gain experience in preparing financial models and in supporting due diligence processes. This will provide for valuable on-the-job training and experience. You will receive a competitive internship allowance.

Can you identify with the following profile? Then we would like to get acquainted.

- University education (Bachelor or Master students) with excellent grades
- Interested in finance and business
- Analytical sense and good with numbers
- Good proficiency with Excel and PowerPoint
- Result-driven
- No 9 to 5 mentality
- Strong communication skills, verbally and in writing (Dutch and English, French is a plus)
- Good sense of humor
